| Total System Cost: _____   |  | <i>*Attach manufacturer's cut-sheet showing listing</i> |   |

**Fees**

**Note: Fees are due in advance and an approved electrical inspection is required before the customer’s Generator Facility can be connected to the Utility System and begin production.**

**Application Fee** (including payment with application – non-refundable)

- \$500 for systems sized 101 to 500 kW
- \$1,000 for systems sized 501 to 1,000 kW

**Production Meter**

- Single phase, 240v & below: \$1,400 (plus tax)
- Three phase meter: \$3,000 (plus tax)
- Single phase, over 240v: \$1,400 (plus tax)

\*Additional fees will apply where normal utility access can’t be provided

\*Production meter fee amounts will be finalized by Clark Public Utilities, and will not exceed the amounts listed above

**Application Submittals Checklist:**

- Completed and signed Interconnection Application
- One-line electrical diagram (with electrical engineer PE stamp)
- Site plan with proposed meter location(s)
- Manufacturer equipment cut sheets
- Submit payment for both Application Fee and Production Meter Fee upon being billed
- BPA approved Small Generator Interconnection Agreement (if system exceeds 199kW in size)
- An executed Net Billing Agreement will be required as a condition of final approval

**Customer Signature**

I hereby certify that to the best of my knowledge, the information provided in this Application is true and correct. I also understand that my participation in the utility's Net Billing Program is subject to the Clark Public Utilities Generator Interconnection Requirements and Terms of Service policies adopted by the utility's Board of Commissioners on July 2, 2024, under Resolution No. 7855.

Mail application to: Clark Public Utilities  
Attn: Energy Resources, Customer Generation  
P.O. Box 8900  
Vancouver, WA 98668

-----  
(For Utility Use Only)

**Utility Contingent Approval**

Interconnection of the Generating Facility is approved contingent upon the Terms and Conditions for Interconnecting a Generating Facility no larger than 1,000 kW and an approved electrical inspection from the appropriate jurisdiction.
