## GET INSPIRED AT THE HOME & GARDEN IDEA FAIR

Mark your calendar for creative inspiration and family fun during the Clark Public Utilities Home & Garden Idea Fair on April 26 and 27 at the Clark County Event Center at the Fairgrounds!

This special community event promises to have something for everyone — from gardeners looking for the perfect plants; renters seeking advice for cutting energy costs; homeowners planning a remodel; and families looking for free, fun and educational activities for the kids.

Dozens of Clark Public Utilities employees volunteer hundreds of hours to produce and host this free community event supporting local businesses and showcasing energy efficient, cost-effective and comfortable ideas for the home and garden. While you're there, look for the blue utility-volunteer vests and say hello. We're happy to lend a hand, answer questions, or help you get to know your utility.

The Home & Garden Idea Fair will be open Saturday and Sunday, from 9am to 5pm. Admission is free. Fairgrounds parking is \$6. Convenient visitor pickup and drop-off locations available. To learn more, visit: [clarkpublicutilities.com/hgif](http://clarkpublicutilities.com/hgif).

## LIGHT LINES

GET THE SCOOP  
BEFORE YOU DIG

Starting an outdoor project soon? Reach for the phone before the shovel. Call 811 to have underground utilities located at least two days in advance of digging, even before planting flowers.

One call dispatches every local utility to your location who then identifies each buried line with color-coded, water-soluble paint.

The service is free, and could help avoid the potentially costly and dangerous consequences of striking buried utility lines. Some utilities can be buried only a few inches deep, and property owners are responsible for damage. Call 811 before you dig — it's the law.

Clark Public Utilities customers with electric heat may qualify for a free or deeply discounted smart thermostat? Scan the QR code to see if you qualify.

# CLARK PUBLIC UTILITIES RACE FOR WARMTH RAISES RECORD FUNDS

The Race for Warmth is produced and hosted by Clark Public Utilities with support from local businesses, including Area Heating & Cooling, Burgerville, Prairie Electric, Asplundh, New Tradition Homes, and many more. Their generous contributions helped run this year's Race for Warmth over a record-breaking fundraising finish line for Operation Warm Heart.

A record 1,750 runners, walkers and riders braved a chilly January morning to hit the pavement and, with the support of local business partners, raised more than \$80,000 for Clark Public Utilities' Operation Warm Heart. Funds raised this year will help nearly 300 households experiencing financial crisis with heating expenses.

Donations to Operation Warm Heart can be made year-round by calling Customer Service, open 24 hours a day, or making a contribution online at [clarkpublicutilities.com/owh](http://clarkpublicutilities.com/owh).

## Fuel Mix

We have a diversified power supply to meet your needs. Clark Public Utilities procures electricity from a variety of resources. Under the fuel mix disclosure law, RCW 19.29A, Washington utilities are required to report the sources of power used to serve customers, as collected by the Department of Commerce annually. The most recent published data is for the year 2023:

Biogas . . . . .	0.11%	Nuclear . . . . .	5.75%
Biomass . . . . .	0.40%	Solar . . . . .	2.36%
Hydro . . . . .	40.06%	Wind . . . . .	10.71%
Natural Gas . . .	31.77%	Market* . . . . .	8.84%

\* "Market" is a mix of wholesale market purchases from unspecified generation sources.
